**METHOD AND APPARATUS FOR LEARNING AN INITIAL
VALUE OF HYDRAULIC PRESSURE FOR UPSHIFT CONTROL
OF AN AUTOMATIC TRANSMISSION**

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

Independent claims 1 and 11 have been found to allowable over the prior art because the prior art fails to teach or suggest a method/apparatus for learning an initial value of hydraulic pressure for upshift control of an automatic transmission of a vehicle, comprising:

“calculating” a turbine torque of the automatic transmission;
calculating a forced adjusting value when a torque phase period is greater than a predetermined time limit; and
learning the “initial” value of hydraulic pressure based on the forced adjusting value, in combination with the remaining limitations of the claim.

The remaining claims have been found to be allowable over the prior art due to the claims' dependency on one of the above claims.

CONCLUSION

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
